Record field coverage

This section reports saved field and attachment presence only; it does not verify condition, safety, authenticity, or completeness.

Every service record in this export has a cost, a meter reading, and at least one attachment.

Receipts online

2 files | Scan with a phone camera

Each code opens the original file saved with that record. Anyone with this PDF can open these files until the person who made this report turns the links off, or the file is removed from ServiceVault.

ABOUT THIS REPORT

Coverage reflects whether a file is saved with a record. It does not verify condition, safety, authenticity, or completeness. Saved attachments support a record but do not prove the work occurred.
